**Honeywell**  
Authorised Channel Partner

**Honeywell**  
Honeywell Thermal Solutions

Dear Sir,

We are pleased to introduce ourselves as a reputed organization serving industries for more than past 20 years, with products & services, related to safe, reliable & efficient use of energy, produced by combustion of oils & gaseous fuel. Our products & services are as follows.

**Honeywell**  
krom  
schroder

### **1) KROM SCHROEDER COMBUSTION CONTROL PRODUCTS**

Elster today is one of the leading German players in the market due to the high technical standard of its products. Our product range includes the following product groups:

- Manual valves and filters

- Pressure switches

- Pilot burners and burners

- Pressure regulators

- Combination controls and MODULINE

- Further ignition- and control devices

- Valves and butterfly valves

- Electronic flame detection and control

- Accessories (flow meters, gauges, bellows, NRV, etc.)

- Measuring and testing instruments

## 2) HONEYWELL COMBUSTION CONTROL PRODUCTS

**Honeywell**

Honeywell is one of the most reliable brands in the world, for oil & gas burner controls. We offer following products and systems from their range.

- Burner controls

- Gas Valves

- Firing Rate Motors and Linkages

- Ignition Transformers

- Flame Detectors – Industrial

- Limits and Controllers

- Industrial Flame Monitoring

- Pilot Burners- Industrial

- Fuel/Air Ratio System

**3) ECLIPSE COMBUSTION CONTROL PRODUCTS**

Eclipse is recognized worldwide as a leading source of high performance combustion solutions for scores of diverse industries. Our industrial process heating products and systems regularly exceed customer expectations for safety, reliability, fuel efficiency and low emissions.

#### **4) MAXON COMBUSTION CONTROL PRODUCTS**

Revolutionizing the industrial heating industry since 1916, Maxon is still in the business of pioneering new cutting edge technologies and innovative product designs today. Maxon's full line of industrial burners and combustion equipment includes

- **Industrial burners**

MAXON offers a wide range of industrial burners for most every industrial heating application.

- **Natural gas burners**

Backed by a worldwide staff of combustion engineers, MAXON is your smart choice for value, reliability, and performance.

OXY-FUEL Burners

Line Burners

Low Temp Burners

High Temp Burners

- **Oil fired burners**

MAXON offers a complete line of oil burners for most applications and all the associated equipment to cleanly and safely heat with all types of oils.

Oil-Air Burners

Oil-Oxygen Burners

- **Gas valves and oil valves**

In the same way, MAXON control valves and advanced control products produce reliable, repeatable control of flows to industrial burners.

- **Shut off valves**

Performance, reliability and durability: 3 reasons MAXON valves have been the leading choice of industry since the 1920's.

Electro-Mechanical Gas

Electro-Mechanical Oil

Electro-Pneumatic Gas

Electro-Pneumatic Oil

- **Ratio & flow control**

With a wide breadth of solutions from intelligent mass flow control to economical mechanical control, our flow and ratio control valve products provide dependable, accurate control of air and fuel worldwide.

Mechanical

Electronic Flow Control

SMARTLINK Meter

Electronic Mass Flow Control Valves

Mixers & Mixing Tubes

➤ Oil flow valve

This gas valve provides a fully adjustable throttling range and is designed to operate over the extremely wide turndown capabilities of Maxon's modern industrial burner systems.

• Low NOx burners

MAXON low NOx burners and advanced control products assure minimal pollutant formation without sacrificing operational reliability or efficiency.

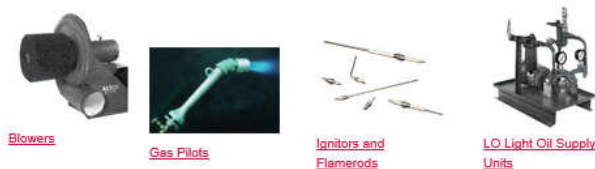

• Combustion Systems

MAXON offers complete combustion systems, combustion equipment and services.

• Accessories

In addition to providing top quality components, MAXON also provides many common combustion system accessories.

We look forward to receive your valued enquiries.
